

Electrified Hotel.
A hotel in Chicago is so heavily charged with electricity that the guests cannot move around without getting a shock that is often painful. It is so bad that when one walks across the room a spark will leap over a space of two inches. The guests have some funny experiences. One man came near getting a shock in his face when he went to get shaved, because he was so startled by a spark from the razor. Then another man thought he had stepped on needles when he got in a bathtub. This peculiar condition of the building puzzles the electricians, and some think that the whole house will have to be overhauled and rewired.—*Boston Journal of Commerce.*

Don't Get Scared
If you should fear that in some place to which you are going malaria is prevalent, the air is so heavy with the miasma that it is a safe and thorough antidote and preventive, viz., Hester's Stomach Bitters. The great anti-malarial remedy for biliousness, constipation, dyspepsia, rheumatism and kidney trouble, nervousness and dizziness.

Each one can see what he carries to his heart.
Dr. KIMBERLY'S SWAMP-ROOT cures all kidney and bladder troubles. Postmaster and consultation free. Laboratory Birmingham, N. Y.

Human science is sometimes an uncertain guest.
Madam Holwey.
I am a mid-wife and have been giving Mrs. E. McCLURE, Rockport, Me., the Wine of Cardui and Black Draught to my lady patient, both during pregnancy and after birth as a tonic, and have found the treatment will do more than is claimed for it. Two years ago I was so troubled with female weakness myself, that I could not work at all. I heard of the Wine of Cardui recommended, and got six bottles of it, and a small package of Black Draught's. I began the treatment as directed, and in two weeks I had improved so much I could do my work, and have never been troubled with it since.

HARDIN WINS.

NAMED FOR GOVERNOR OF KENTUCKY BY THE CONVENTION.

He Is for Free Silver—Only One Ballot Taken.

The Kentucky democratic convention called to order at Louisville Tuesday was the biggest, most excited and turbulent that the history of the party has ever known. In attendance it surpassed any other held for a generation. Interest in the currency question is so great that every delegate present had his nerves strained to the last degree of tension. Yet with all the desire for harmony was evident from the start. Never before were there so many complications, for the flood of candidates crossed and recrossed each other, and the ghost of the banquet, the dreadful financial problem, kept waving its ghastly form before the frightened eyes of the convention.

Promptly at noon John D. Carroll, chairman of the state central committee, called the body to order. The organization of the committee on resolutions, which is composed of one man from each of the eleven districts and two at large to be appointed by the chair, shows a majority of gold men in the committee. Of the eleven already chosen, seven are gold advocates and four for free silver.

Nominations being next in order, Judge William Beckner and ex-Congressman W. J. Stone, of Lyons county, were nominated for chairman. The voting was watched with much interest, as the vote was a test one, Beckner being the Hardin man, and Stone the choice of the Clay men. Judge Beckner received 448 votes on the first ballot against 419 received by Stone. Chairman Beckner made a very good speech, urging harmony and submission to the will of the majority. When he referred to silver the hall was rent with yells and when he praised Cleveland's honesty and courage another demonstration took place.

When he had concluded the organization was completed and then the chairman gave the silverites a shock by dividing the committee from the state at large among the two factions. On the platform committee he named Senator Lindsay and Congressman Clardy, representative of gold and silver men, but not extremists. The sound money men then had an overwhelming preponderance on the committee.

The convention adopted the majority report of the committee on resolutions, which was as follows: "To the Democratic Convention in Session at Louisville—The undersigned, a majority of your committee, beg leave to submit as their report the accompanying resolutions."

"1. The democracy of Kentucky in convention assembled congratulates the country upon the repeal of the McKinley tariff law and upon the evidence we have on every hand of returning prosperity, under operation of reduced and equalized tariff taxation, and we denounce as fraught with danger and disaster the threat of our republican adversaries to re-establish protective tariff and reinaugurate the policy of unequal taxation which, in connection with general misgovernment by the republican party, culminated in the business panic of 1893.

"2. The democratic party, which has always stood for the separation of church and state, for the sake alike of civil and religious freedom, does not hesitate to condemn all efforts to create a distinction among citizens, because of differences in faith, as repugnant to an enlightened age and abhorrent to the instincts of American freemen.

"3. We reaffirm without qualification the principles and policies declared by the national democratic platform of 1892 and declare that our present national democratic administration is entitled to the thanks of the party for its honest, courageous and statesmanlike management of public affairs; and we express our undiminished confidence in the democracy and patriotism of President Grover Cleveland and his distinguished co-adviser and secretary, John G. Carlisle, of Kentucky."

The fourth and fifth resolutions are devoted to state matters. The report of the minority, which declared for a single gold standard, was as follows:

"We, the undersigned members of the committee on resolutions, dissent from the views expressed by the majority of the committee in resolution No. 3, which is proposed as an endorsement of the present national democratic administration, because said resolution is ambiguous, obscure and uncertain in its meaning, and is, in our opinion, an attempt to straddle the most vital question now attracting the attention of the American people. And while the undersigned do not concur in the views expressed in said resolution, nor in the views expressed in the amendment, which they here with submit, they nevertheless believe that it is the duty of the democratic party to express itself in clear and unambiguous terms on this subject. The financial policy of the present democratic administration deserves an unqualified endorsement at the hands of the democratic party of Kentucky, or it does not deserve such endorsement, and with that view of taking the opinion of representatives of the democrats of Kentucky in convention assembled, we submit the following as an amendment to the said resolution:

"Resolved, By the democrats in Kentucky in convention assembled, that the present democratic administration is entitled to the thanks of the whole country for its statesmanlike management of public affairs, and we further declare that both President Cleveland and Secretary Carlisle are entitled to the unqualified endorsement of the American people for maintaining the credit of the government and their insurance of \$100,000,000 of interest bearing bonds is hereby expressly endorsed."

"The undersigned members of the committee on resolutions believing the democratic party in favor of true bimetalism, of the gold standard, after the following as a separate resolution and ask its adoption:

"Resolved, That we believe in the

EPWORTH LEAGUE.

THEIR SECOND INTERNATIONAL CONVENTION.

Chattanooga Welcomes Them With Open Arms and Hearts.

The second international convention of the Epworth League met in Chattanooga, Tenn., Thursday. Nine thousand people were present before the great tent when Rev. C. C. Atkins delivered the opening prayer at 2:30 o'clock in the afternoon and every voice then joined in the anthem "America" and the hymn "Blest be the tie that binds," to which the accompaniment was six grand pianos and an equal number of silver tongued cornets. It was thrilling beyond words.

All of the bishops of the church were present excepting Bishop Vincent, who was unable to attend. Chattanooga proved herself equal to the emergency. Delegates were assigned to comfortable quarters as fast as they arrived. The weather was delightful, with prospects fair for a continuation of these conditions during the week.

Notable Visitors Present.
Among the most notable visitors may be mentioned, Bishops Hendricks, Hargrove, Galloway, O. P. Fitzgerald and Merrill; Dr. Edwin A. Schell, general secretary of the league; Dr. John Potts, of Toronto, Canada, and Dr. Steele, chairman of the general committee.

A significant feature of the convention is the colors adopted being red, white and gold, red and white are colors of the Northern and Canadian leagues, and red and gold of the southern leagues. To give each of these representation, the tri-colors were adopted. Headquarters were opened for the various state and conference department rallies of these departments being arranged in addition to the stated program.

The conference formally opened at 2:30 in the big tent, which has a seating capacity of 10,000. There were chair provisions for 1,000, reserved seats for 250 special guests and seats for 100 representatives of the press. The huge tent was crowded at the opening service, and an inspiring song led by a chorus of 1,000 voices started the great convention to work.

The opening remarks were made by J. A. Patten, representing the Chattanooga committee. Eloquent addresses of welcome were delivered by Mayor George W. Ochs, representing the city of Chattanooga, and Rev. J. P. McFerrin, D. D., representing the Methodist Episcopal Church, South, of the city of Chattanooga, representing the M. E. Church, South, of that city, Bishop S. M. Merrill, of Chicago, for the M. E. Church, and Rev. Dr. John Potts, of Canada, for the Canadian delegation.

Following these speeches the conference was formally opened and turned over to Dr. Steele, chairman of the general committee.

At night, Bishop I. W. Joyce presided and Bishop Galloway delivered the conference sermon. A feature never before seen in a meeting of this size occurred Thursday night in the administration of the sacrament of the Lord's Supper to fully ten thousand people.

SOUTHERN GETS IT.
The Atlantic and Florida sold by the Central Trust Co.

The Southern railway gets the Atlantic and Florida railroad. And Atlanta gets the new union passenger depot, of which the city has dreamed many years. These two bits of railroad news constitute the most important change in the railway chess board of this region of the south for a long time.

While it is true that the Atlanta and Florida was bought in, on the face of the contract, by the Central Trust Company of New York two weeks ago, it became known that the deal was really in behalf of the Southern Railway Company, to which the formal deed of the property has been made.

The Southern will take charge without delay, and the Atlanta and Florida becomes a part of the splendid system of roads which is rapidly growing to proportions as great as the greatest railway system in America.

The reasons given for the purchase of the Atlanta and Florida by the Southern are that the road was cheap and was regarded as available at the price paid. The price as named in the papers was \$275,000.

It will be remembered that when the Central Trust Company bought the property this was the price paid, but owing to certain indebtedness of the road to the Central Trust Company, only \$59,975.48 of the price named had to be paid in actual cash for the property.

The amount of purchase was for the most part taken up in what the Atlanta and Florida already owed the Central Trust Company of New York, the amount of indebtedness being \$152,383.66, and another debt coming due July 1st of \$62,640.86. These debts to the Central Trust Company were accepted in part payment for the road and the actual outlay of cash was comparatively small.

DISRESPECT TO ALTGELD.
The Illinois Legislature Treats Its Message Shamefully.

The Illinois legislature met at Springfield Tuesday afternoon in extra session, but did no business of importance. Governor Altgeld's message was read in both branches and in the house was referred to the committee of the whole. In the senate it was referred to the committee on expenditures. This action was regarded as a slap at the governor and was the first indication of war between the republican majority and the executive.

Comstock Makes a Raid.
Anthony Comstock, with his men made a big raid on the offices of the American Bank Note Company premises and in the office of T. C. Gruber, at New York. He captured 100,000 circulars and 1,000 tickets of lotteries.

Bob Fitzsimmons on Trial.
The trial of Robert Fitzsimmons upon an indictment for manslaughter in the first degree in killing "Con" Riordan in a sparring match commenced at Syracuse, N. Y., Monday.

PATTERSON'S TRAGIC DEATH.

A Prominent Georgian Killed in Oklahoma.

The announcement of the tragic and untimely death of Hon. R. W. Patterson at South End, Oklahoma, was startling and sad information to the people of Macon. A telegram received in Macon gives the following additional particulars of the double killing:

"The War, a newspaper published at Enid, by one T. L. Eisenberg, has continued for some time to make insinuations against Mr. Patterson, the attack culminating Wednesday in a bitter editorial. In Patterson's endeavor to resent the insult, City Marshal Williams interfered. Eisenberg ran and Patterson chased him. Williams determined to stop the trouble and beat Patterson on the head, which so infuriated Patterson that he fired at Williams, hitting him near the heart. Williams, in his dying moments, took aim and shot Patterson, the ball entering the right ear, killing him instantly. Williams died in a few minutes. Eisenberg escaped with a few wounds and has left the city. There is intense feeling and the city is overcast with gloom."

A special from South End says: J. L. Eisenberg, the author of the scurrilous article that led to the killing of Register Patterson and Marshal Williams, left town early Wednesday night to avoid being mobbed. The people, on reading the article, became so incensed that threats of a mob were freely made, and had he been found he would have been summarily dealt with. Threats are made against the War office and it was with great difficulty that the crowd was kept from tearing the building to pieces. Patterson and Williams were known to be friends and the double killing ends Eisenberg and his personal journalism in the community.

DR. HOPKINS WILL REMAIN.
Withdraws His Resignation as President of Technological School.

The commencement exercises of the Georgia School of Technology were concluded at Atlanta Wednesday morning. The following young gentlemen received their degrees:

S. W. Allen and J. A. Almond, Elbert county; H. W. Clark, Richmond county; J. M. Goldsmith, Ft. Walton; G. H. Harrison and Wm. Jesop, De Kalb; J. F. Lovette, Fulton; C. W. McCall, Chatham; W. B. Nunnally, Fulton; T. F. Oetjen, Richmond; J. E. Smith, Fulton; R. N. Towers, Floyd. Only the papers of Messrs. Harrison, Lovette and Towers were read. These papers showed diligent research and a thorough knowledge of the subjects treated.

The annual address was delivered by Hon. J. F. Hanson. He spoke of the advantages of a mechanical and technical education to the young men of the south. He spoke plainly and yet hopefully of the future of the country; discussed the present need of material advancement along the industrial line, and exploded the theory that cotton is king.

Dr. Hopkins to Be Retained.
At a meeting of the board of trustees Dr. Hopkins reconsidered his resignation and will still remain at the head of the institution. This good news to the numerous friends of Dr. Hopkins an all interested in the welfare of the institution.

FRUIT GROWERS ORGANIZE.
Preparing to Make War on the Railroads for Lower Rates.

Georgia fruit growers organized at Atlanta Tuesday. Representatives and delegates from every section of the state were present at the meeting called for that purpose.

The present freight rates on fruits is what incited the meeting and forced the fruit growers to organize. They claim that the rates as now laid down by the Southern Railway and Steamship Association are exorbitant, that with an unprecedented crop now on the trees the charges of the roads will make it impossible to realize anything.

The sentiment against the railroads among the fruit men is strong. The object of their present organization is to get in good shape to deal with the rate committee; but there was a deeper thought than this in the many speeches which were made. Unless satisfactory arrangements are made it is not improbable that they will take some measures to test the legality of the organization of the Southern Railway and Steamship Association. At any rate, it will mean a fight and a bitter one, too, for the political influence of the men composing the organization is not limited.

BIG BLAZE IN FRISCO.
Many Buildings Burned and Heavy Financial Loss.

The worst fire San Francisco has had in over thirty years started early Tuesday in the rear of the San Francisco box factory, located at Fifth and Harrison streets.

Before the department reached the ground the flames were sweeping through a number of frame buildings on Fourth street, which backed into the box factory and leaped across the street to the Southern Pacific bay front. The second alarm was turned in only to be followed by a third and fourth in rapid succession. The following are some of the buildings destroyed:

Houler, furniture manufactory; Geo. W. Deplan, wagon and truck manufactory; Capital box factory; Tremont hotel; I. H. Small, iron foundry; Vanderberg & Lewis, stair builders; Commercial feed mill; Independent feed mill; Irwin F. Neibaur, hardware store; August Steinmetz; Becker & Hillman, furniture factory; Custom feed mills; Garrick, Williams & Wright, box factory.

A conservative estimate of the loss is \$1,500,000. There is about \$800,000 insurance.

EXCHANGED WIVES.
How Two Indiana Couples Will Settle Their Marital Differences.

John and James Winick, cousins, living near Star City, Ind., are soon to have a double wedding. Both were married on the same day about ten years ago. Later both were divorced. Now John is to marry James' divorced wife and James is to wed John's discarded wife.

HIGHTEST OF ALL IN LEAVENING POWER.—LATEST U. S. GOV'T REPORT

Royal Baking Powder

ABSOLUTELY PURE

A Substitute for Ice.

Chicago has been interested recently by some experiments with a new chemical compound designed to take the place of ice. The chemical costs 20 cents a pound. It is placed in the ice box of a refrigerator, a small amount of water is added to cause it to dissolve; the refrigerator is then closed and cold results immediately. The inventor says that the compound contains 11 ingredients, and the formula is a secret. The mixture is light pink in color, and is in the form of crystals like coarse salt. It is said to be perfectly harmless, and has an alkaline taste. When moistened it instantly becomes intensely cold. The effect lasts twenty-four hours, or until the crystals are entirely dissolved. Then it is placed on a fire and "boiled down" until the water evaporates and the crystals are left in their original form. It is then ready for use again by simply adding fresh water. It is asserted that the chemicals lose none of their properties by the process and that the crystals can be used for years. During the Chicago tests ice was frozen to the thickness of window glass in a few minutes, and to the thickness of two or three inches in less than six hours. The experiments were successful in every way, and ice dealers ought to be particularly interested in them.

There is little doubt that before many years a refrigerating apparatus will be devised by which houses may be cooled in summer as easily as they are now warmed in winter. The new refrigerating compound may be an important factor in the solution of this problem.

Counterfeit Dimes.
Counterfeit silver 10-cent pieces that contain as much, if not more silver than genuine coin, have been discovered in the United States treasury. They have been received from banks and are so carefully made that it requires the trained eye of an expert to detect their bogus character. The coins have the appearance of being well worn, a result of careful work on the part of the counterfeiter and a valuable aid to their circulation. Several of the coins have been sent to the secret service officials, who pronounce them most dangerous counterfeits and express the belief that they were made in Europe and sent to this country for circulation.—*Philadelphia Record.*

Pain is Not Conclusive of Pleasure.
Especially when occasioned by corns. Perfect pain will please; it removes them. Perfect pleasure will please; it removes them.

Syrup of Figs.
Mrs. Winslow's Syrup of Figs for children teething, softens the gums, reduces inflammation, allays pain, cures colic, 25¢ a bottle.

ONE ENJOYS
Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, head-aches and fevers and cures habitual constipation. Dr. PIERCE'S Golden Medical DISCOVERY

Cures Ninety-eight per cent. of all cases of Consumption, in all its Earlier Stages.

Although by many believed to be incurable, there is the evidence of hundreds of living witnesses to the fact that, in all its earlier stages, consumption is a curable disease. Not every case, but a large percentage of cases, and we believe, fully 98 per cent. are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has progressed so far as to induce repeated bleedings from the lungs, severe lingering cough with copious expectation (including tubercular matter), great loss of flesh and extreme emaciation and weakness.

MEDICAL DEPARTMENT.
Tulane University of Louisiana.
Its advantages for practical instruction, both in ample laboratories and about vast hospital buildings are unequalled. Free access is given to the great Charity Hospital with 20 beds and 200 patients, annually. Special instruction is given in a FREE department of the school. The next session begins October 15th, 1895. For catalogue and information address Prof. S. E. CHAILLE, M. D., Dean, 607 P. O. Drawer 261, NEW ORLEANS, LA.
